### **More feature theory**

If you would like extra practice on feature theory, here is a suggested exercise. Go back to each of the following problems, and re-write the rules using feature notation.

1. In class activity #4 on Spanish
2. Homework #4 on Modern Greek
3. Homework #4 on Amharic
4. Homework #4 on Gen
5. Homework #6 on Thai
6. Homework #6 on Hungarian

Each one that you get correct will add 2 points to your score on Homework 8.

To get these extra points, you must turn in the rules in feature theory by Wednesday, 31 May 2006.
